Invested to date

 **41 000**
Public & private players

 **#2**
French region for clinical trials

 **#2**
Region in France for patents

 **280**
Members of the Eurobiomed cluster (80% SMEs)

THEY’RE TALKING ABOUT US

“Provence-Alpes-Côte d’Azur is the most attractive region because of its scientific research, its financial support, and its broad, collaborative ecosystem.”

ABREOS BIOSCIENCES

American start-up from San Diego, California that has expanded to Marseille, France

“The South of France was the most dynamic place to start my company for a variety of reasons: significant institutional support, generous financial subsidies, a hub focused on specialties (immunology, oncology, neuroscience, and rare diseases), and a one-of-a-kind ecosystem that was easy to connect with.”

NEUROSERVICE

Business based in Aix-en-Provence, France that has expanded to San Diego, California

SUD REGION, LAND OF INNOVATIVE THERAPIES

- ▶ **#1 university in France**
 - Structured network that combines academic and industrial research
- ▶ **Renowned immunology sector ranked in the global Top 3:** Biopark dedicated to immunology
- ▶ **Welcoming environment for companies**
 - Dedicated, customized support from region
 - Financial support for research (tax credit program - CIR)
 - Custom real-estate and land solutions
 - 500 companies at the heart of the health sector
 - Eurobiomed: the biggest cluster in France
- ▶ **Leading international bioindustry companies located in Sud region:** HaliuDx, Immunotech Beckman Coulter, Innate Pharma, Ipsen, Iris Pharma, Median Technologies, Nicox, Provepharm Life Solutions, Sanofi, Sartorius, TxCell, Virbac, ...

A REGION CONNECTED TO THE WORLD

Major international trilateral partnership between clusters: Eurobiomed (*France*), **Biocom** (*California, USA*), and **Link-J & JBA** - Japan Bioindustry Association (*Japan*)

A STRUCTURED, MULTI-SECTOR NETWORK FOSTERING MARKET OPPORTUNITIES AND INNOVATION

Markets

- Medication
- Medical devices
- E-Health
- Diagnostics

Specializations

- Immunotherapy
- Oncology
- Infectious diseases
- Neurology

Inter-sector synergies

- Digital technologies
- Industries of the Future
- Silver Economy & E-Health

5 GOOD REASONS TO INVEST

1 WORLD-RENOWNED EXCELLENCE

- Oncology
- Infectious diseases
- Medical devices
- Immunology
- Neurology

→ Choose a location that is at the forefront of the European bioindustry

2 STRUCTURED ECOSYSTEM

- Synergy and partnerships to make your move a success
- Customized real estate solutions
- Dedicated support (personnel and financing)

→ Ensure your investment is successful

3 SKILLS AND EXPERTISE

- #1 region in France for attracting skilled employees
- Major hospitals and clinics
- Human resources support to facilitate your move
- Innovative program to attract global talents

→ Attract the talent to grow your business

4 STRATEGIC LOCATION

- Access to a market of 800 million people between Europe, Africa, and the Middle East
- A hub for key logistics networks (air, rail, road, sea, river, data transmission)
- 4 major scientific parks dedicated to sector

→ Develop your business activities in Europe

5 CUSTOMIZED SUPPORT

Developing companies

- Support programs for life sciences companies: competitiveness, R&D, promotion, market access
- Shared resources to facilitate all project stages, from R&D to market entry

→ Accelerate your transition to the biotech economy of tomorrow

Financial support for innovation

- Start-ups
- Co-investments
- Business development

→ Financing for your product or service
